

Mounting

FLEXIBILITY

FLX Series PDUs

STANDARD MOUNTING HARDWARE - INCLUDED

- Allows for multiple mounting options and ease of installation
- Includes flat brackets, L-brackets, backplates, screws and washers
- Button mounting hardware included for keyhole mounting
- Works for a variety of rack/cabinet applications

Part #

ADJUSTABLE EXTENSION BRACKETS - PDURK-BKT

- Designed primarily for use in open-frame equipment racks
- Adjustable brackets make room for cable management and other hardware
- Robust 14-gauge construction ensures ample support for PDU and connected power cords
- Works with all Leviton vertical rack-mount PDUs

Part #

PDU CORD MANAGER - PDURK-MGR

- Mounts easily to the rear of all FLX Series vertical PDUs
- Works seamlessly with either standard PDU mounting brackets or button mounting hardware
- 18-gauge cold-rolled steel construction with black powder coat finish
- Integrated slots allow adjustable straps to secure cords and improve aesthetics
